US 13 Sewer Project: West Denney’s Road

Dover, Del. – As construction is nearing Phase 3 there will be impacts near Delaware Technical and Community College (DTCC) and a closure on West Denney’s Road. A description is below followed by a map to help motorists get around.

KENT COUNTY LEVY COURT
US 13 SEWER REHABILITATION PROJECT
PROJECT NOTIFICATION #11

11-19-2019 Notification / West Denney’s Closure

Construction activity is taking place in Phase 2B and will be entering into Phase 3 soon. Just a reminder that all temporary traffic closures will include the appropriate and regulated detour signage to assist drivers with an alternative traffic route. Please see the information below:

Project Update:

- Both of the Northbound Left Turn Lanes onto West Denney’s Road (T14) are now closed for approximately six weeks (weather permitting). This work started the second week of November.

- West Denney’s Road will be closed from US13 to the Delaware Technical Community College entrance road (T15 & T16) for approximately four weeks (weather permitting). This work is anticipated to start the first week of December. (See map on next page)
  - No access from US13 to West Denney’s Road
  - Only Local traffic will be permitted from McKee Road/RT15 to West Denney’s Road
  - No access from West Denney’s Road to North Delaware Tech Drive (north College entrance)
  - Scarborough Road will be the only access to Delaware Technical Community College
Looking ahead:

- Final pavement and restoration work will occur during the month of December for the entire length of the project with minimal disruptions. This work is heavily reliant on good weather temperatures and will be completed when these days are available.
